# **#506 Soft Amber Soap**

---

## **Product Data Sheet**

---

### **Description:**

#506 Soft Amber Soap is a thick concentrated soap made from biodegradable materials.

### **Uses:**

This product is a mild soap suitable for cleaning all types of surfaces and equipment. Dilutions of the product are not uncommon depending on the application. For lighter duty cleaning, dilutions of 150:1 are not uncommon. Solutions will exhibit a moderate foaming tendency.

#506 Soft Amber Soap is a versatile thick paste that can also function as an excellent biodegradable, environmentally safe lubricant. This soap is also excellent on all rubber and synthetic rubber surfaces. #506 Soft Amber Soap can be utilized as a release agent for various concrete or other applications where an environmentally safe, petroleum free compound is desired.

### **Features:**

- Thick, viscous gel
- Mild, no free caustic present
- Biodegradable
- Contains no organic solvents
- Contains no petroleum
- Contains no phosphates
